Programming Language: Javascript

Frontend Development: React.js, Redux, Javascript, Tailwind CSS, CSS3, HTML5

Backend Development: Node.js, Express.js, RESTful APIs

Database Management & Authentication: MongoDB, MySQL, Firebase

Tools & Technologies: Git, GitHub, Postman, VS Code, Vite, Vercel, Render

PROJECTS

Blog Application – Website ([link](#)) April 2026

Tech Stack – MongoDB, Express.js, React.js, Node.js, Firebase (Auth), Tailwind CSS, HTML5

- Built a full-stack blog platform with secure authentication and post CRUD features.
- Integrated Firebase authentication for user login, signup, and session management.
- Developed an interactive dashboard for efficient blog management and updates.
- Created RESTful APIs using Node.js and Express.js with MongoDB integration.
- Designed a fully responsive UI using Tailwind CSS for cross-device compatibility.
- Implemented React routing and state management for smooth navigation and performance.

Homeverse – Website ([link](#)) Dec 2025

Tech Skills – ReactJS, Firebase (Auth), Javascript, TailwindCSS, HTML5

- Built a responsive real estate web application using React, Vite, and Tailwind CSS.
 - Implemented user authentication (login) for personalized access.
 - Designed property listing and property detail pages for users to explore homes.
 - Created an interactive cart/favorites feature to save preferred properties.
 - Ensured mobile-friendly and modern UI design across devices.
 - Integrated efficient navigation and state management for smooth user experience.
-
