ABOUT ME

Immediate Joiner | Aspiring React Front-End Developer with practical project experience and a strong focus on creating user-centered designs. Passionate about building responsive and modern web applications using React and JavaScript. Highly motivated to learn new technologies, adapt quickly, and contribute effectively to a collaborative and dynamic team environment.

SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks/Libraries:** React.js, Mantine UI, Tailwind CSS, Framer Motion
- **Tools:** Git, npm, VS Code, Chrome DevTools, Netlify
- **Certification:** React JS Course — Scaler, Front-End development – SimpliLearn
- **Other:** State Management, API integration, Component-Based Design, Responsive UI, Asynchronous JavaScript

PROJECTS

Book Hunt – Online Book Discovery & Wishlist App

- Collaboratively built a full-stack book discovery application using React.js and Tailwind CSS, enabling users to search, browse, and manage personalized wishlists seamlessly with an intuitive and responsive interface.
- Integrated Firebase Authentication and Firestore to implement secure login, protected routes, and real-time user-specific data management with persistent cloud storage support.
- Enhanced user experience with Framer Motion animations and optimized API handling with proper loading states and structured error management for smooth user interactions.
- Structured reusable and scalable components following clean architecture principles to ensure maintainability, readability, and future feature expansion.

Pokémon Finder App using Mantine UI

- Developed a dynamic Pokémon search application using React.js and Mantine UI with real-time REST API integration and well-structured state management for efficient data flow.
- Designed responsive card-based layouts to display Pokémon stats, types, and characteristics clearly across mobile, tablet, and desktop devices with consistent UI behavior.
- Implemented efficient search and filtering logic to handle large datasets while maintaining smooth performance and optimized rendering during rapid user interactions.
- Managed loading states and error handling gracefully to ensure stable performance, preventing UI breaks during asynchronous API responses.

Portfolio Website (React.js)

- Built a professional portfolio website using React.js to showcase projects, technical skills, and achievements in a structured, visually appealing, and recruiter-focused format.
- Designed responsive layouts with modern styling principles to ensure readability, accessibility, and visual consistency across all screen sizes and devices.
- Developed reusable components and integrated subtle animations to enhance usability, improve engagement, and maintain a cohesive design system.
- Deployed and optimized the application for performance, ensuring fast loading speed, improved SEO structure, and accessible content presentation.
