PROJECTS

Portfolio Website

<https://harishm-portfolio.netlify.app>

React JS, JavaScript, CSS

- Designed and developed a personal portfolio website using React JS to effectively showcase projects and technical skills.
- Implemented a component-based architecture for better code modularity and maintainability
- Ensured cross-device compatibility by leveraging CSS media queries, Flexbox, and Grid for fully responsive layout.

Netflix Landing Page

<https://Netflix Landing page.netlify.app>

React JS, HTML, CSS

- Developed a fully responsive Netflix-style landing page using React.js and modular, reusable components.
- Implemented dynamic content rendering using React components for an interactive user experience.
- Utilized CSS media queries, Flexbox, and modern layout techniques to ensure seamless responsiveness across devices.

Digigrow Service Company

<https://harishs-dynamite-site-0230d8.webflow.io/>

WebFlow

- Built a professional IT service company website in Webflow, implementing responsive layouts, interactive sections, and optimized performance for cross-device compatibility.
- Built structured sections including Services, About, and Contact with user-friendly navigation.
- Applied smooth transitions, hover effects, and modern UI styling to enhance the overall user experience.

EDUCATION

Periyar University

Government Arts College, Dharmapuri
