Professional Summary

Python Developer with hands-on experience in Django, REST APIs, and SQL, along with a strong foundation in data handling using Pandas and NumPy. Passionate about Artificial Intelligence, Machine Learning, and Generative AI with strong problem-solving ability and understanding of core concepts. Experienced in backend development, API integration, and automation. Seeking an entry-level role to contribute to real-world applications.

Python Full-Stack Developer Intern

Key Skills: Python Developer, Backend Developer, SQL Developer, Full Stack Developer, Data Analyst, Flutter Developer.

Education

B.Tech in Electronics & Communication Engineering	2021 – 2025
G Pulla Reddy Engineering College, Kurnool — CGPA: 8.0 / 10	
Intermediate (Class XII)	2020
Board of Intermediate Education, Andhra Pradesh — CGPA: 8.0 / 10	
SSC (Class X)	2018
Board of Secondary Education, Andhra Pradesh — CGPA: 9.2 / 10	

Technical Skills

Programming Languages: Python (OOP), SQL, JavaScript, NodeJs
Web Technologies: HTML, CSS, Bootstrap
Frameworks & Tools: Django, Git, Pandas, NumPy, REST APIs
Artificial Intelligence: Basics of AI, Generative AI, Large Language Models (LLMs), Search Algorithms (BFS, DFS), Knowledge Representation
Machine Learning: Supervised & Unsupervised Learning, Regression, Classification, Clustering
Core Concepts: Data Structures, OOP, CRUD Operations, Database Management, JSON, HTTP

Experience

Python Full-Stack Developer Intern	Jan 2025 – Mar 2025
WISS 2 SKILL	
• Developed backend modules using Python and Django to handle application logic. • Designed REST APIs to process JSON data and HTTP requests. • Performed database operations using SQL for efficient data handling. • Automated repetitive tasks to improve efficiency. • Used Git and GitHub for version control and debugging.	

Projects

Student Management System	Project Link
• Developed a Python application to perform CRUD operations. • Applied OOP concepts to create modular and maintainable code.	
Python Web Scraper	Project Link
• Built a web scraper using Requests and BeautifulSoup. • Processed extracted data using Pandas for analysis.	
Weather Forecast Application	Project Link
• Developed a weather application using REST API integration. • Displayed temperature, humidity, and weather conditions with proper error handling.	

Certifications

Python Programming Certification • SQL Certification • Python Full-Stack Internship

Soft Skills

Problem Solving • Team Collaboration • Adaptability • Time Management • Communication

Additional Highlights

- Solved 100+ programming problems on coding platforms.
- Strong interest in AI/ML, Generative AI, and python development.
