- * Certificate of Completion for successfully completing the 30 Days MasterClass in Full Stack Development conducted by NoviTech R&D Private Limited, Coimbatore.
- * Certificate No: NT_B35FSD101

PROJECTS

Tomato – Full-Stack Food Delivery Web App | *MERN Stack* Jan 2026

- Built a full-stack food delivery application where users can browse food items by category, add to cart, and place orders.
- Implemented Login/Signup authentication and real-time cart updates using React Context API.
- Integrated Stripe payment gateway for secure checkout and order confirmation.
- Developed My Orders tracking and an Admin Panel for managing food items and updating order status using MongoDB.

DocSpot – Doctor Appointment Booking System | *MERN Stack* Oct 2025 – Nov 2025

- Developed a full-stack web application with role-based authentication (Patient, Doctor, Admin).
- Implemented JWT authentication, protected routes, and secure RESTful APIs.
- Integrated frontend with backend using Axios and REST API integration.
- Designed MongoDB schemas and implemented CRUD operations.
- Built responsive dashboards using React Hooks with real-time updates.

MERN Stack Authentication System | *MongoDB, Express, React, Node.js* Dec 2025

- Built a secure authentication system using JWT and Bcrypt for login and signup.
- Implemented OTP-based password reset and protected routes.
- Developed REST APIs with HTTP-only cookies for improved security.
- Integrated frontend and backend using React and Axios.
