

JUDITH SAKINA

WEB DEVELOPER

shakinajudith068@gmail.com | +91 91501 03373

SUMMARY

Enthusiastic Python Developer with a strong grasp of OOP. Skilled in writing clean, efficient code and solving real-world problems. Quick learner, eager to contribute and grow in a dynamic environment.

Strong analytical and problem-solving skills with a passion for logical thinking. Ability to write well-structured, maintainable code following best practices. Committed to continuous learning and adapting to new challenges.

TECHNICAL SKILLS

HTML	Python	Django
CSS	Bootstrap	Flask

PROJECTS

Online Admission System

- Developed a web-based system to automate college admissions, enabling online applications, document verification, and merit-based selection.
- Designed modules for student registration, admin management, and real-time application tracking, improving efficiency and reducing manual workload.

Prediction of Alzheimer's Disease

- Developed a machine learning model using Python to predict Alzheimer's disease based on data analytics techniques, improving early detection and diagnosis accuracy.
- Implemented data preprocessing, feature selection, and model training to enhance prediction performance. Evaluated model accuracy using performance metrics and optimized results for better reliability.

EDUCATION

Master of Computer Applications (MCA) 2021-2023

CSI Institute of Technology

- Major in Computer Science & Applications.
- Postgraduate degree in advanced computing, software development, and system architecture.

Bachelor of Computer Applications (BCA) 2017-2020

St. Jerome's College

- Undergraduate degree focusing on computer science, programming, and software development.
