OBJECTIVE

I'm a motivated and detail-oriented software developer eager to start my career in a dynamic and growth-oriented organization. I'm passionate about coding, problem-solving, and learning new technologies to build efficient and user-friendly software solutions.

EDUCATION

Master of Computer Application, Dr.G.R. Damodaran College of Science, Coiminator. 2023-2025

Bachelor of Computer Science, S.T. Hindu College, Nagercoil. 2020- 2023

SKILLS

Technical Skills	JAVA, HTML5, CSS3(BOOTSTRAP CSS),JAVA SCRIPT,React.js
Back-end	Node.js, Spring Boot
Database	MySQL, MongoDB
Tools Used	VS Code, Eclipse, IntelliJ, NetBeans IDE, MySQL Workbench

PROJECTS

Software Piracy Protection. The Software Piracy Protection System is a Java-based web application developed using JSP, Servlets, MySQL, and Apache Tomcat to prevent unauthorized software use. It verifies each user's license key during installation or login, ensuring only genuine users can access the software. The system helps software developers protect their products from illegal copying and multiple activations.

Online Restaurant Booking Website Developed a web-based application to manage restaurant reservations and customer interactions efficiently. Implemented features such as user registration and login, real-time table booking, booking management, and reservation confirmation. The system allows administrators to manage restaurant details, seating capacity, and booking schedules. Built using JAVA, ReactJs for dynamic web functionality and MongoDB for secure and efficient data management, ensuring accurate reservation tracking and improved customer experience.

EXTRA-CURRICULAR ACTIVITIES

- **Certified in JAVA FullStack.**
- **Certified in Computer Hardware Basics and Cisco Networking Fundamentals.**
- **Certified in MongoDB Database Fundamentals.**
- **Participated in a National level Workshop on "Machine Learning And Python".**
