SUMMARY

Aspiring UI/UX Designer with hands-on experience in user research, wireframing, prototyping, and mobile app design. Skilled in creating user-centered digital experiences through design thinking and usability testing. Passionate about solving real-world problems and delivering intuitive products that balance user needs and business goals.

PROJECTS

MomBite – Home Food Delivery App

Role: UI/UX Designer | Tools: Figma, FigJam

- Conducted 6 user interviews and competitor analysis to uncover key challenges in discovering and ordering trusted homemade meals
- Designed end-to-end user flows, wireframes, and high-fidelity mobile screens across 15+ Figma screens, and validated ordering experiences through interactive prototypes
- Delivered a UX case study connecting home chefs with customers seeking homemade food, following a user-centered process from research to final solution

Thinnai – Skill Sharing Mobile App

Role: UI/UX Designer | Tools: Figma, Miro

- Conducted user interviews and surveys with 5+ participants to uncover learning behaviors and community engagement pain points
- Designed end-to-end user flows, wireframes, and high-fidelity mobile screens across 10+ Figma screens, and built interactive prototypes to validate and iterate on key interactions
- Delivered a comprehensive UX case study enabling seamless peer-to-peer skill sharing, following a user-centered design process from research to final solution
